

Western High School
- A California Distinguished School -
Has an Exciting New Program This Year!
“PTLC”

(PIONEER TECH LEARNING COMMUNITY)

- Students in the “PTLC” all have the same teachers in several core subjects so they feel like they’re in a small, friendly high school.
- The Western “PTLC” is a “Four-Year Pathway” for students who want to develop strong technology skills while attending high school in a small-school environment.
- Students in the Western High School PTLC are in 9th grade this year and are taking the courses required to meet the University of California (UC) and California State University (CSU) eligibility requirements.
- “PTLC” students are able to participate in all sports, clubs and all the other fun extracurricular activities available at Western!
- If your 9th grade son or daughter is in the “PTLC”, ask them to tell you about it! If they’re not in the PTLC, contact their counselor at Western to discuss applying for it for 10th grade! There will be a very limited number of openings available.
